

ZAC HOGAN

JUNIOR FRONTEND DEVELOPER

I'm a Junior Frontend Developer looking for a full-time role in Auckland.

I've been honing my tech skills throughout my life through hobbies, study, and work.

For the past two years I've been studying the frontend skills I need to succeed in this role, and have developed an understanding of what I need to learn to progress further - as well as the drive to get there.

Methodologies

BEM

Related Skills

- AWS Lightsail basics
- 2D Design
- 3D Design
- Video and Animation
- System development, administration, security.

KEY PROJECTS

WWW.ZACHOGAN.COM

A little portfolio site about me. Largely designed and developed from scratch, and with the help of a couple of external libraries.

CURIOSITY JOURNEY [ALPHA]

A site allows users to find all photos taken by NASA's Curiosity Rover for any given day. In active development. Currently ugly, but functional.

WORK

MAKERSPACE - AUCKLAND CENTRAL LIBRARY

From 2018 to present I've been the Makerspace Librarian at Auckland Central City Library.

I'm responsible for the varied and unusual technologies in the Makerspace, as well as the services, processes, and design of the space. My work has included selecting, configuring, and maintaining software for custom public-use computers, large-panel array displays, and a range of Raspberry Pi micro-computers for a variety of public-facing use cases.

EDUCATION

BACHELOR OF VISUAL ARTS

UNIVERSITY OF AUCKLAND

Projects included game development, a study of interactivity, wayfinding in virtual spaces, and teaching/reinforcing gameplay skills.
